

TECHNICAL SKILLS

- **Languages:** HTML/CSS, JavaScript, TypeScript, C, C#, Python, Java (Android Development)
- **Frameworks:** React, Next.js, Vue, Node.js, Bun, Hono, Express.js, NestJS, Vue, Vite, Electron, Tailwind CSS, .NET
- **Database & Messaging:** MongoDB, MySQL, Redis, RabbitMQ, Prisma
- **Tooling/Platforms:** Git, GitHub, Docker, Linux, pnpm, Jenkins, Playwright, Vercel, Bash, Powershell, Figma, OVH, Cloudflare

EXPERIENCE

- **Community Manager (osu!)** Remote (Australia)
ppy Pty Ltd *Nov 2022 – Present*
 - Managed multiple official staff teams, coordinating 20+ members, conducting regular performance reviews, and spearheading leadership efforts to ensure content curation and quality assurance systems operate efficiently and meet high standards.
 - Led official and community-driven projects and events, coordinating activities for hundreds of users to enhance engagement and collaboration within the community.
 - Developed and maintained internal tools, primarily using **JavaScript**, **TypeScript**, **React**, and **Vue**, optimizing workflows and increasing team productivity.
 - Maintained high on-call availability, smoothly handling any time-sensitive tasks and critical issues to ensure the community's needs were met promptly.
 - Handled customer support, resolving user inquiries and addressing technical issues, while managing administrative tasks to ensure smooth operation of community activities.
- **Project Lead & Software Developer** Sousse, Tunisia
Glybette (Update IT & Training) *Feb 2026 – Jul 2026*
 - Built **Glybette**, an AI-powered career platform helping students and graduates discover opportunities, build portfolios and CVs, and prepare for interviews.
 - Architected a **microservices** backend (**Hono**, **Node.js**, **MongoDB**, **RabbitMQ**) behind an API gateway, with an **AI service** for matching, CV enhancement, and mock interviews.
 - Developed the **React/TypeScript** client (**Vite**, **TanStack Query**) in a **pnpm** monorepo; deployed with **Docker** and a **Jenkins CI/CD Pipeline**.
 - Worked in an **Agile/SCRUM** framework with sprints, stand-ups, and retrospectives.

PROJECTS

- **AxerBot** 2022 – 2024
<https://github.com/Hiviexd/AxerBot>
 - Developed an open source chat bot using **TypeScript** in the social messaging platform Discord, used regularly by **100,000+** users across **2,000+** Discord servers.
 - Created a streamlined chat command creation framework to easily create **50+** chat commands.
- **Tournament Tracker** 2024 – Present
<https://github.com/Hiviexd/tournament-tracker>
 - Developed a modular and scalable web application to manage osu! tournaments, voting, support tickets, and community resources using the MERN stack (MongoDB, Express.js, React, Node.js).
 - Designed a scalable backend architecture with various third-party API integrations.
 - Integrated file uploads with support for Cloudflare R2 storage.
 - Set up CI/CD workflows to initiate automatic deployments for both production and staging environments.

• MapsetVerifier

2025 – Present

• <https://github.com/Naxesss/MapsetVerifier>

- Played a key role in the **2.0** ground-up rewrite of **MapsetVerifier**, an open-source desktop modding tool for **osu!** beatmapsets used by Beatmap Nominators and mappers worldwide.
- Rebuilt the application with a **React/TypeScript** frontend, **.NET 9** backend, and **Electron** shell, replacing the legacy stack with plugin support, auto-updates, and built-in checks for all game modes.
- Co-maintain the project alongside the core team; releases are distributed to **Windows**, **Linux**, and **macOS** users.

EDUCATION

• Polytechnique Sousse

Sousse, Tunisia

- *National Diploma of Engineering*

Presented and defended end-of-studies project (Glybette) in English.

2023 – 2026

• GoMyCode

Sousse, Tunisia

- *Full-stack Web Development Certificate*

2022

• Higher Institute of Informatics and Mathematics of Monastir

Monastir, Tunisia

- *Bachelor of Computer Science*

2020 – 2023

LANGUAGES

- **Arabic:** Native
- **English:** C1
- **French:** B2
